LANIER TECH PATHWAYS

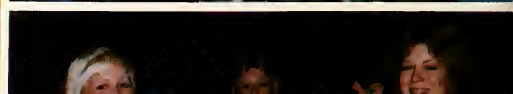

1980

Each of us has chosen to walk this road. Different as we are, we yet have walked together for a way. We have shared laughter and tears, successes and failures, but most importantly each other. Whether in working toward our different goals or in happy friendship with each other, we know that we came away from each experience with new ideals and greater awareness of what we can do.

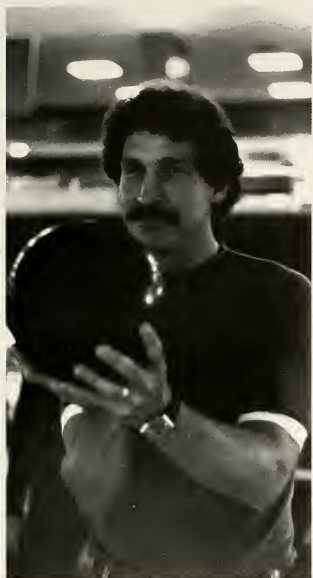

The road stretches out before us and beckons us to new adventures that lie around the next bend. For some that means good-byes are in order and sad partings must take place. Yet each of us can look back along this road we have walked and remember that we walked this one together. Together we have come safely through the mountains.

Data Processing

A cartoon illustration of a person with a distressed expression, sitting at a desk and being completely buried up to their chest by a massive, tangled pile of computer printouts. One of the visible sheets of paper has the words 'REPEAT REPEAT REPEAT' printed on it. The person's arms are outstretched in a gesture of helplessness.

WHERE'S THE STOP BUTTON?...HELP!

HALLOWEEN

Who knows what evil lurks in the hidden recesses of Lanier Tech? Only the "Shadow" knows for sure!

Watch out girls, the halls are full of them!

The "Bo Derek" look.

Dawn, how in the world do you get into these things? Hey! Anybody want to pull on a braid?

Actually, we are performing
the world' first brain
transplant!

A typical student council member.

"How should I know? I just work here!"

"Gee! I should know what they are doing, but it looks so strange!"

CHRISTMAS DANCE

Christmas Queen: Connie Guthrie

Connie and Runner-Up's Kim Head and Robin Bearden

The routine of classroom instruction seems never to end.

But, of course, it does and we find many ways to fill our leisure hours.

So we leave the halls empty, and
instructors wondering, as we flee
to better times.

But let's never forget where we came from or the roses we left blooming along the way.

For the beauty that surrounds us is no accident. It must be within us before it can be perceived in the world around us or in others.

The storms of life often pass us by, but not always.

And we yet have time to run nimble fingers over a game. ZAP!

To the Students of Lanier Tech

The road draws us forth then runs ahead,
To far places and distant steads.
Through valleys and forests, lush and green,
Over hills, 'cross rivers, and under sun's sheen.
The way is both easy and rough,
Steep and level, soft and tough.
So we climb the hills one at a time,
And explore new waters, now fresh, now brine.
We've trekked together these last miles,
I've seen your faces, smiled your smiles.
And joy it has been just knowing you,
The things you are, the things you do.
Now your road turns left, mine right,
And you'll be gone ere the night.
I want you to always keep this thought with you,
God loves you, and I do too.

What Is Success In Nursing?

Is it knowing how to make an occupied bed, or knowing that a bed is occupied?

Is it patient care, or caring for the patient?

Is it knowing a patient's needs, or needing the patient?

Is it having a love for your work, or working for love?
